## EAST AND WEST ROADS DRIFTED

High Ways Add to Handicap of Keeping Highways Open in Traffic.

## SNOW IS PACKED HARD

Heavy snow has drifted in from the east, and the roads are now in a bad way. The snow is packed hard and it is difficult to get the roads open. The snow is packed hard and it is difficult to get the roads open.

## When the Worm Turned

Something that every motorist has had to do is pictured in this cartoon. The car is turning to the right, and the worm is turning to the right.

## Motor Modes

A man in a suit is standing next to a car. He is looking at the car.

## Questions and Answers

Answers to questions from readers. The first question is about a car that won't start.

## THIRD SECTION OF FLA. ROUTE

Portion Given This Week. Dr. J. H. Smith, of Jacksonville, is in charge of the work.

## ALL ROADS ARE GOOD

The roads are in good shape. The weather is good. The roads are in good shape.

## That Motor Car of Yours

Take care of your car. It is your best friend. Take care of it.

## One Word of Warning

Be careful of the weather. It can be dangerous. Be careful.

**Buick Ahead Again in the Yellowstone!**  
Again in 1926, more Buicks toured through Yellowstone Park than any other car except the one of lowest price.  
Buick has held this same honor every year since the Park was opened to automobile travel.  
This year there were 4,756 Buicks in a total of 64,472 cars registered. 101 different makes were represented in the registrations. One in every ten was a Buick.  
Here is convincing evidence of Buick reliability—making proof of the faith which Buick owners repose in their cars.  
They know Buick will take them and bring them back comfortably, safely and speedily—across the Continent—or around the World.
